

TECHNICAL DATA SHEET

Fumigation Plate

- In many laboratory and similar installations there is a need to fumigate the room after certain procedures have taken place. To prevent any fumigation products being discharged through the pressure stabiliser into other areas during this process, R&D provide fumigation sealing plates to attach to their pressure stabilisers.

Benefits to the Designer

- Hassle free design service.
- Quality engineered reliable products.
- Wide choice of RAL powder coat colours.

Benefits to the User

- Reliable.
- Ease of maintenance.
- Easy to clean resilient surfaces.
- Unobtrusive Installation.

Product Features

- Manufactured from aluminium.
- Dome head or plastic knob fixings.
- Attached directly to the stabiliser.
- **SteriTouch® Antimicrobial powder coated as standard.**
